

Min. centroid distance (elbow is better)

Max. centroid correlation (lower is better)

Fraction with membership ≥ 0.30 (higher is better)

Smallest cluster (features) (higher is better)

muscle – cluster centroids (k = 12); E = Endur, R = Resist

cluster 1

cluster 2

cluster 3

cluster 4

cluster 5

cluster 6

cluster 7

cluster 8

cluster 9

cluster 10

cluster 11

cluster 12

muscle – centroid correlation (k = 12)

max off-diagonal r = 0.975

muscle – cluster sizes

muscle – membership (56.8% ≥ 0.30)
